- 2b
- 1 Xiuhtezcatl Martinez
 - 2 Guajajara Guardians
 - 3 Autumn Peltier
 - 4 Marinel Ubaldo
 - 5 Wangari Maathai
 - 6 Jia Wenqi and Jia Haixia

3a *Model answers:*

- a It is called the Seabin. Andrew Turton and Pete Ceglinski made it in Australia. It can catch plastic bags and bottles in the sea. It has a large ring with a bag in the water under it. You can find it in more than forty-five countries now. This is most useful for people living near the sea.
- b It is called a windmill. William Kamkwamba made it in Malawi. It brings water from under the ground and sends it on to dry land. He made it with old bits of metal and wood. You can find it in villages in Malawi. This is most useful for people living in dry places.

4a *Model answers:*

- 1 We must not **destroy** the **environment**!
